

I use  
**IDEA.**

**RNDr. Maya Mašková**

Manager of Internal Audit  
and Control Department  
Allianz pojistovna, a.s.  
Czech Republic

“IDEA is used for data analysis of insurance databases, accounting data and many other databases to select samples for further analyses during internal audits and insurance fraud investigations, for getting insight into insurance portfolio and claims records and for compiling various overviews and statistics. With IDEA’s ability to import many different types of data formats, user friendly predefined functions for data analysis and evaluation, and ability to work interactively with large data files (several tens of millions of records), it has become our essential work tool.”

Allianz pojistovna, a.s., part of the Allianz Group, is one of the leading insurance companies in the Czech Republic. At Allianz, IDEA is used extensively in the internal audit and control department and also in the analytical departments during processing of insurance claims and insurance policies.

IDEA can read, display, analyze, manipulate, sample or extract from data files from almost any source. Lower your audit cost, add more quality to your work and meet professional standards.

Be a better auditor.  
You have the knowledge.  
We have the tools.
